"The Chlorine Dioxide People"

## **Chem-CD™ Chlorine Dioxide Generating Chemicals**

Providing industry with chlorine dioxide solutions

### **Are you looking for a simple chlorine dioxide gas generation method?**

**Chem-CD** is the solution to your problems. We have a revolutionary new process, developed by the US military, which works quickly and effectively. It is reasonably priced, easily stored, very powerful, and, most importantly, brings you the benefits of chlorine dioxide for your biological safety cabinet (BSC). Our blend is specially formulated to meet NSF/ANSI 49 Annex G 2009 requirements for generating chlorine dioxide gas.

Generates 0.13 g/ft<sup>3</sup> of chlorine dioxide gas to meet NSF/ANSI 49 requirements.

Pricing information			
Order Number	Volume	Quantity per box	Price per box
CHEM-CD-6.5	3-4 ft BSC	8 sets	Please contact Us
CHEM-CD-9.75	5-6 ft BSC	8 sets	Please contact Us

### **What are the advantages?**

- Lower purchase costs than other chlorine dioxide methods
- Less storage space required
- Lower shipping costs
- Easy Transportation

### **Simple to use!**

**Step One:** Drop CHEM-CD chemicals into approved bowl

**Step Two:** Add water

**It's that simple**
